IWER: Is this interview held in a private household or in a nursing home?

A nursing home provides all of the following services for its residents: dispensing of medication, available 24-hour personal assistance and supervision (not necessarily a nurse), and room & meals.

- 1. Private household
- 2. Nursing home

During our previous interview we asked about the household. To shorten our interview today, I would like to refer to previous answers instead of asking everything again. Would that be ok?

[This study is interested in learning about important aspects of people's lives such as their health, financial and family situations.]

In ^FL_MONTH ^FL_YEAR, your household has participated in a study called 50+ in Europe. As you know, this study is interested in learning about important aspects of people's lives such as their health, financial and family situations. To do so, we are re-interviewing people such as yourself who participated in the study last time.

We are particularly interested to learn how people fare who move to a nursing home.

This interview is voluntary and confidential. If we should come to any question you don't want to answer, just let me know and I will go on to the next question. The answers that you give will be kept confidential and will be used only for research purposes.

Before beginning the interview, I need to ask a few questions about each household member, like name, sex, and date of birth. Let's start with you.
