Now I would like you to name as many different animals as you can think of. You have one minute to do this.

Ready, go.

Allow one minute precisely. If the respondent stops before the end of the time, encourage him/her to try to find more words. If he/she is silent for 15 seconds repeat the basic instruction ('I want you to tell me all the animals you can think of'). No extension on the time limit is made in the event that the instruction has to be repeated.

The score is the sum of acceptable animals. Any member of the animal kingdom, real or mythical is scored correct, except repetitions and proper nouns. Specifically each of the following gets credit: a species name and any accompanying breeds within the species; male, female and infant names within the species. Code number of animals (0..100)

Now we are going to ask you a set of questions regarding income from different public pensions and benefits. We are interested in the amounts, timing of these payments, and finally for how long you have received them.

1. Continue

EP671_IncomeSources (INCOME FROM PUBLIC PENSIONS IN LAST YEAR)

Please look at card 26.

Have you received income from any of these sources in the year ^FLLastYear;?

Main public sickness benefits: they are contribution-based payments received as an earnings replacement when an employee is off sick.
Main public disability insurance pension: if the sickness turns out to be long-standing, and a return to work is not to be expected, then the claimant will typically be transferred to a disability insurance pension (e.g. invalidity or incapacity benefit). The term 'pension' in the heading of this category is to be meant as 'regular payment', rather than relating to old age.
Public unemployment benefit or insurance: they are received, for a limited time period, by previous employees, later finding themselves unemployed. Eligibility is based on a history of insurance contribution.
Public long-term care insurance: it includes cash payments meant to provide for long term care needs; receipt does not necessarily depend on having previously paid contributions.
Social assistance: it includes cash or voucher programmes meant to provide a general 'safety net', guaranteeing minimum resources to those otherwise lacking resources from either employment or contributory based social security benefits/pensions.

I now want to ask you to participate in a special measurement. To study ageing, it is important to know how much people over 50 sit, sleep and move. We will measure this in a precise and objective manner. For that, we want to ask you to wear a small activity meter for 8 days. The meter is small and is worn on the upper leg. We will not be able to track your location while you are wearing it, only your movements. I will show you what it looks like now. You can attach it very easily to your upper thigh with a tape. It is similar to using a band-aid. Show instruction booklet with pictures and explain.

Start of a Non-proxy section. No proxy allowed. If the respondent is not present or not capable to give consent to participation on her/his own, press CTRL-K at each question.

1. Continue

Would you be willing to participate in this special measurement?

There are no exclusion criteria for the participation in this study. We are also interested in people who move very little or do not need to move more or less than you usually do. We want to capture how much you sit, sleep and move around in your everyday life. The motion measures are downloaded by us from the meter and are processed in an anonymized format. I emphasize that participation in this measurement is fully voluntary.

If you participate, you will wear this small meter on the upper leg, day and night, for 8 days. This means 8 x 24 hours. You do not need to move more or less than you usually do. We want to capture how much you sit, sleep and move around in your everyday life. The motion measures are downloaded by us from the meter and are processed in an anonymized format. I emphasize that participation in this measurement is fully voluntary.

AX011_NoBurden (REFUSAL CONVERSION NO BURDEN)
I understand that you consider participation too complicated or burdensome. The only thing you have to do is to wear the accelerometer for 8 consecutive days. It is very small and lightweight, easy to attach, and you do not have to worry about it. You don’t have to turn it on or off, or do anything else with it during the wear, it works by itself. Most people who wear it almost forget they are wearing it. After the 8 days, you can simply return it to us in the envelop that comes with it. You will get [country incentive] for your participation. Would you now be willing to participate in this special measurement?

AX012_Privacy (REFUSAL CONVERSION PRIVACY)
If I understand correctly, you think that wearing the device would give access to your private and sensitive data. The device is not GPS-enabled, your exact location cannot be recorded. The device simply measures the number and intensity of your movements and nothing else. There is no possibility to track your whereabouts or to measure any other information. Would you now be willing to participate in this special measurement?

AX013_Skin (REFUSAL CONVERSION SKIN)
If I understand correctly, you think the tape with which you attach the device will damage your skin or provoke an allergic reaction. The tape is specially designed for longer weartime on the skin. It is used for medical purposes where people have to wear devices directly on the skin for a longer period than eight days. The risk of an allergic reaction is therefore very small.
