1. Continue

EP671_IncomeSources (INCOME FROM PUBLIC PENSIONS IN LAST YEAR)
Please look at card 26.
Have you received income from any of these sources in the year \(^{\text{FLastYear}}\)?
Code all that apply.

Main public sickness benefits: they are contribution-based payments received as an earnings replacement when an employee is off sick.
Main public disability insurance pension: if the sickness turns out to be long-standing, and a return to work is not to be expected, then the claimant will typically be transferred to a disability insurance pension (e.g. invalidity or incapacity benefit). The term 'pension' in the heading of this category is to be meant as 'regular payment', rather than relating to old age.
Public unemployment benefit or insurance: they are received, for a limited time period, by previous employees, later finding themselves unemployed. Eligibility is based on a history of insurance contribution.
Public long-term care insurance: it includes cash payments meant to provide for long term care needs; receipt does not necessarily depend on having previously paid contributions.
Social assistance: it includes cash or voucher programmes meant to provide a general ‘safety net’, guaranteeing minimum resources to those otherwise lacking resources from either employment or contributory based social security benefits/pensions.
